5 MOLD DISCLOSURE: There are many types of mold. Inhabitable properties are not, and cannot be, constructed to exclude
6 mold. Moisture is one of the most significant factors contributing to mold growth. Information about controlling mold growth
7 may be available from your county extension agent or health department. Certain strains of mold may cause damage to
8 property and may adversely affect the health of susceptible persons, including allergic reactions that may include skin, eye,
9 nose, and throat irritation. Certain strains of mold may cause infections, particularly in individuals with suppressed immune
10 systems. Some experts contend that certain strains of mold may cause serious and even life-threatening diseases.
11 However, experts do not agree about the nature and extent of the health problems caused by mold or about the level of
12 mold exposure that may cause health problems. The Centers for Disease Control and Prevention is studying the link
13 between mold and serious health conditions. The seller, landlord, seller's agent, buyer's agent, or property manager cannot
14 and does not represent or warrant the absence of mold. It is the buyer's or tenant's obligation to determine whether a mold
15 problem is present. To do so, the buyer or tenant should hire a qualified inspector and make any contract to purchase, rent,
16 or lease contingent upon the results of that inspection. A seller, landlord, seller's agent, buyer's agent, or property manager
17 who provides this mold disclosure statement, provides for the disclosure of any prior testing and any subsequent mitigation
18 or treatment for mold, and discloses any knowledge of mold is not liable in any action based on the presence of or
19 propensity for mold in a building that is subject to any contract to purchase, rent, or lease.

21 The undersigned, Seller, Landlord, Seller's Agent and/or Property Manager disclose that they have knowledge that the
22 building or buildings on the property have mold present in them. This disclosure is made in recognition that all
23 inhabitable properties contain mold, as defined by the Montana Mold Disclosure Act (any mold, fungus, mildew or
24 spores). The undersigned are not representing that a significant mold problem exists or does not exist on the property,
25 as such a determination may only be made by a qualified inspector.

27 If Seller/Landlord knows a building located on the property has been tested for mold, Seller/Landlord has previously
28 provided or with this Disclosure provides the Buyer/Tenant a copy of the results of that test (if available) and evidence of
29 any subsequent mitigation or treatment.
